### Technical Skills

- HTML5, CSS3, JavaScript, Bootstrap, Angular
- ASP.NET Core & C#
- Microsoft SQL Server
- DBMS
- Git & GitHub
- Visual Studio / Visual Studio Code
- Object-Oriented Programming (OOP)

### AI Tools

- ChatGPT(Open AI)
- GitHub Copilot
- Google AI Studio
- Claude
- Cursor
- Hugging Face
- Perplexity

### Soft Skills

- Problem-solving and Analytical Thinking
- Effective communication
- Team collaboration
- Time Management
- Adaptability

### EDUCATION

Master of Computer Applications, 2025

Tula's Institute, Dehradun, India

Bachelor of Computer Applications, 2021

V.K.S.U, Arrah, India

### CERTIFICATIONS

- Full Stack Development Training
- ML with Python
- .NET Full Stack

### SUMMARY

Motivated Computer Science graduate with skills in **ASP.NET, Angular, SQL, and Web Applications**. Completed internships in **Data Analysis and Web Development**, gaining hands-on project experience. Enthusiastic about researching **new AI tools** and building innovative, user-friendly applications. Strong problem-solving mindset with projects in **AI-powered solutions and responsive web platforms**, eager to contribute to dynamic development teams.

### WORK EXPERIENCE

**Fare & Data Analyst Intern | AKVM Solutions Pvt Ltd**, Gurgaon, India

October 2024 – January 2025

- Analyzed airline fare structures and competitor pricing to support dynamic pricing strategies.
- Operated **GDS Amadeus** to retrieve, compare, and manage flight fare data effectively.
- Maintained daily records using **CRM tools**, ensuring data accuracy and streamlined client/vendor tracking.
- Assisted in optimizing fare visibility on travel websites to boost engagement and conversions.
- Coordinated with cross-functional teams to ensure up-to-date fare data and web content.

**Web Development Intern | Main Flow Technologies**, Remote

July 2024 – August 2024

- Designed, developed, and maintained responsive websites and web applications as part of assigned project work.
- Implemented front-end features using **HTML5, CSS3, JavaScript**, and integrated them with back-end logic where needed.
- Updated and enhanced existing websites by adding key features and improving user experience.
- Followed best practices in web development including clean code, browser compatibility, and responsive design.
- Gained practical experience in version control (Git), debugging tools, and UI/UX concepts.

### PROJECTS

#### Portfolio Builder

**Tech Stack:** Python, Flask, HTML, CSS, & JavaScript

- Built a **dynamic and responsive web app** for creating personal portfolio websites without coding.
- Offers **pre-designed templates** with modern **UI/UX** and full **dark mode support**.

#### College Query Chatbot – AI-Powered Virtual Assistant

**Tech Stack:** Python, Flask, SQLite, PyTorch, Sentence Transformers, HTML5, CSS3, JavaScript

- Developed an AI-based chatbot using **Natural Language Processing (NLP)** to automate student and faculty queries related to admissions, fees, exams, and more.
- Built a web-based application with **voice input/output support** and a **responsive UI** for 24/7 accessibility.
- Integrated NLP for smart query matching and a secure admin panel for FAQ management.
- Reduced administrative workload and enhanced communication efficiency within the institution.
